

COSMO

Always Together

We're On a Mission

At COSMO, we believe in families, and we're on a mission to help bring them closer together.

In a big-tech world that's built on screen addiction, selling clicks, and questionable content, it's easy to feel like no one is fighting for families.

COSMO is a different kind of technology company, founded by two former homeschoolers, that's reinventing the future of family-first technology for parents and kids.

We believe that families deserve better.

Simple. Safe. Connected.

Finally, the perfect cell-phone alternative for families

- Text & Voice Messages
- Class Mode
- Pedometer
- Trusted Contact List
- No Open Internet

“We have this for both of our daughters [ages] 6 and 4 and love them. [It's] so easy for them to call me any time no matter the situation.
- Sherilee

“I love this watch. Works great for my 8 yr old who is so picky about what he wears. Comfortable and the GPS works great.
- Danielle
